## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 9 recites the limitation "said standard total wafer thickness". There is insufficient antecedent basis for this limitation in the claim.

### ***Allowable Subject Matter***

3. Claims 1-20 are allowed over prior art because prior art doesn't describe or teach the claimed limitations of "determining a non-compensated thickness to be removed from the layer, determining an offset thickness, determining a current removal rate, calculating a compensated removal rate using the non-compensated thickness, the offset thickness, and the current removal rate, and polishing the layer according to the compensated removal rate."
